Mafia Documentary

Boston College documentary filmmaker John Michalczyk will be in the **Raytheon Room at 7:30 p.m. on Wednesday, February 9**, to screen his newest film *Killing Silence: Taking on the Mafia in Sicily*. The film takes a look at the courageous stand against the Mafia taken by ordinary Palermo citizens and leaders in their outrage against the 1992 slayings of two Italian prosecutors. The film elucidates how the Mafia became ingrained in Sicilian culture and how ultimately its unrestrained violence drove the public to rally together to fight it. Most of Michalczyk's films have aired on PBS. "Killing Silence" is part of a series of films about conflict resolution.

Africa Awakening

Join filmmaker John Michalczyk and Ghanaian-American artist/activist Derrick N. Ashong at **7:30 p.m. on February 3 in the Raytheon Room** for a program called *Africa Awakening*. Michalczyk will show his documentary, *South Africa: Beyond a Miracle*, while Ashong will describe a new vision for Africa being promoted by the Sweet Mother Tour (SMT). The SMT is using popular culture in collaboration with young artists and activists from around the world to present a positive image of Africa and her people throughout the African Diaspora. They hope to challenge and inspire a new generation to join the fight for *Mama Afrika*.

DVDs GET A NEW LEASE ON LIFE

They may have lots of great extras that videotapes don't, but when it comes to shelf life, DVDs are the big losers. The slightest scratch or smudge can disable a DVD. The Library sometimes gets complaints from patrons about balky discs. But salvation may be at hand: the Venmill 3500, our new disc buffing machine takes the library's bedraggled DVDs and gives them a shiny new outlook. It's quick, easy to use, and seems to be thoroughly effective. We're still in the shakedown phase, but early results are promising. Stay tuned!

In the meantime you can help us out by practicing the following good DVD handling guidelines:

CARE OF DVDs & CDs

Dirt, fingerprints, and scratches of almost any severity can prevent a disc from working properly.

- Carefully remove the disc by pressing or squeezing the center button and easing the disc out.
- Please hold the disc by the edges only.
- Do not touch the silver (unlabelled) side of the disc.
- Do not let young children handle the disc by themselves.
- When the disc is not in a player, please keep it in its case.

Confidentiality Policy

Sometimes patrons are surprised when we don't give out information about the library records of other family members. In order to respect your privacy, we do not share information about your library account with other patrons, even family members. In some circumstances materials on an individual's library account are of a sensitive nature, and there are many patrons who prefer to keep the material they check out confidential. It is not possible for the library staff to know all of our patrons' personal preferences in the matter of privacy. Our confidentiality policy is consistent with Massachusetts General Laws Chapter 78, Section 7 and American Library Association recommendations.

Display Case Come Play in the World of Children's Books!

The Minuteman Library Network willingly accepts any library's materials at any member library. However, as our volume of interlibrary loan increases, transporting these materials is costing us more and more time and money. Therefore, we are asking for your help with the transportation of library materials. We will still accept materials from other libraries; however, we would appreciate your returning materials to the library where you checked them out when it is convenient for you.

Great Decisions Program

The Great Decisions Program will continue its series of discussions about political issues. On **February 18**, the discussion will be *Russia*. Library Building Feasibility Study Committee

A committee to examine the feasibility of expanding library facilities and services was appointed in September of 2003 and has been meeting monthly since that time. The Committee is currently studying the feasibility of expanding at the current site and has hired an architectural firm to assist in this study. Funds for this study were voted by Town Meeting. Some of the identified deficits in our building include: insufficient space for the audio-visual collection and computers, deficient staff work area for Interlibrary Loan activity and computer systems, the lack of quiet study and reading areas, a program room of inadequate size, no Young Adult area, and an overcrowded, cramped Children's Department.

Annual Spring Shakespeare Festival

Our 16th annual Shakespeare series with Professor Helen Whall will start on Tuesday, April 19 at 7:30 p.m. The dates scheduled are all Tuesday evenings: **April 19, May 3, and May 17.** This year's theme is "Shakespeare and Tyranny." Shakespeare was fascinated by the concept of "misrule." The issues surrounding tyranny both at home and abroad are as relevant today as they were in Shakespeare's time. The three plays (*Richard II*, *Richard III*, and *Macbeth*) that Dr. Whall will explore with us this year all examine bad leadership in historical/fictional monarchies. This program is supported in part by a grant from the Wayland Cultural Council, a local agency supported by the Massachusetts Cultural Council, a state agency and by the Friends of the Wayland Library.

Great Decisions

The Great Decisions Program will continue its series of discussions about political issues. The next program will focus on China. What strategies can China adopt to sustain its economy while meeting the needs of its people? Come and join the discussion on **April 15 from 9:15 to 11:30 a.m.**

Kay Patterson Oil Paintings

Kay Patterson will exhibit oil paintings in the library foyer during April. Kay was born in Southern California, and spent much of her youth near the Pacific Ocean. Great Decisions Program

The Great Decisions Program will continue its series of discussions about political issues. On **May 6** the discussion will focus on Sudan's Crisis in Darfur. The crisis in Sudan's Darfur region has drawn the world's attention because of the humanitarian crisis it has spawned. What role should the U.S. play? On **May 20**, the topic will be Global Poverty. The promise of globalization is that it will benefit poor countries through trade and close the poverty gap. Critics have argued that high debt owed by poor countries to rich countries has widened the gap between these countries. What can be done to narrow the global poverty gap? **Join the discussions, which take place at 9:15 a.m. in the Raytheon Room.** For further questions, please call Sema Faigen at 508-653-6098.

Screening of silent film of *Richard III* With Professor Helen Whall

On Tuesday, June 14 at 7:30 in the Raytheon Room the library will screen a 1912 silent film version of *Richard III*, considered by the American Film Institute to be the earliest surviving American feature film. Since it was unearthed in the early 90's it has been restored to its original brilliance by the AFI with a score by composer Ennio Morricone. It was originally produced as a vehicle for 19th Century stage actor Frederick Warde. The film honors the intricacies of the original play while it flavors the drama with spectacular crowd scenes and rich color tints. It also offers a fresh glimpse of a time in history when Shakespeare wasn't strictly the domain of scholars but was a source of popular entertainment.

Wireless Internet Access

Wireless Internet access is now available at the library for computers with a wireless network card. The Internet connection is provided free as a public service through Comcast, and the equipment and installation costs were paid for by the Millennium Endowment Fund. We are very pleased and excited to be able to offer this service enhancement to our users.

Great Decisions

The Wayland Library Great Decisions Program continues its series of discussions in June. On June 3 the discussion will be on the Middle East. How will the war in Iraq and the creation of a transitional government transform the Middle East? How will a democratic Iraq relate to its neighbors and regional partners? Does the Iraq experiment create the potential for other Middle Eastern governments to adopt democracy? Two weeks later, on June 17, the topic will be Global Water Issues. Scarcity of water in many regions creates problems and conflict for large numbers of the world's population. What policies should be adopted to ensure water quality? **Join the discussions, which take place at 9:15**

Library Feasibility Study Committee Report

Lerner, Ladds & Bartels, the architectural firm hired to do a feasibility study on the possibility of expanding the library, submitted their final report to the Feasibility Study Committee in April. This report, and other information about the Feasibility Study, is now in the reference section of the library as well as on the library website, www.wayland.ma.us/library. The Feasibility Study Committee and Trustees presented a report to the Selectmen on June 20 stating that although it would be feasible to expand at the current library site, an addition would require the acquisition of neighboring property. The architects came up with a nice design for the site that incorporates the historic building and is sensitive in scale and mass to its surroundings. However, even if the town acquired the additional land, the constraints on the site imposed by the Aquifer Protection District, the Conservation Commission, the DEP, proximity to the Historic District, and the town's own zoning bylaws make expanding at the current location considerably more costly than building on a new site. The Feasibility Study Committee recommended that before proceeding to expand at the current site, the Trustees continue to try to identify other town sites that might be studied for future library use.

Library Delivery Situation

As of Friday, July 29 the Minuteman Library Network has *temporarily* suspended the request system for audio-visual materials only. The number of requests for materials between Metrowest libraries has been growing and, unfortunately, the volume has overwhelmed the delivery vendor. As an emergency measure, we need to decrease the number of new requests. Therefore, holds on audio-visual (AV) items (music CDs, DVDs, VHSs, and audiobooks) have been temporarily suspended. Delivery among all Minuteman libraries is provided by the Metrowest Regional Library System, which serves over 300 libraries in the Metrowest area. Minuteman is working with Metrowest to solve this problem as quickly as possible. We apologize for the inconvenience.

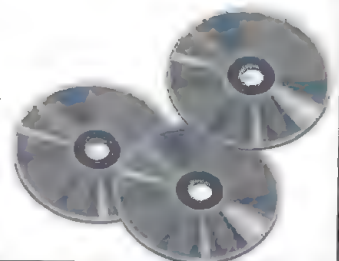

While the freeze on AV requests is in effect, you will be able to place holds on print materials (books and magazines) as usual, search the online catalog, and come into the library to browse the library stacks and check out items as usual. If you find an AV item you want at another Minuteman library, you may go there and borrow the material directly; your library card may be used at any Minuteman library. Also, while we are resolving this problem, you can help us minimize the number of items in delivery by returning your materials to the library where you checked them out. Thank you for understanding that this is not a choice made by Minuteman libraries, but a response to a challenge to the delivery system. Please bear with us while this problem is resolved.

Free DVD/Video Tuesdays Continues through August!!!

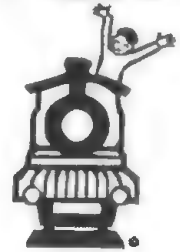

In consideration of the inconvenience and frustration of not being able to reserve audiovisual materials, we have extended our "free DVD/Video Tuesdays" through the month of August. On Tuesdays through the end of August, library patrons may check out up to four DVDs or videotapes from our rental collection free of charge. Thanks for your enthusiasm and continued support!

Fall Art Series with Judy Schurgin

In late October, Professor Judy Schurgin will begin a series of art lectures focusing on four Florentine Renaissance artists. On **October 20**, Schurgin will discuss Sandro Botticelli (1445-1510), one of the most important Renaissance artists of fifteenth century Florence. Known for portraits, religious works and mythological stories, Botticelli succeeded in translating the ideals of Greek humanism into painting. On **October 27**, the topic will be Leonardo da Vinci (1452-1519), one of the greatest geniuses who ever lived. A quintessential fifteenth century Renaissance man, his paintings not only influenced his contemporary artists, but such seventeenth century artists as Rembrandt and Rubens. On **November 10**, Schurgin will continue with the life and art of Michaelangelo (1474-1564), the sculptor, painter, architect and poet, known as one of the legendary masters of the High Renaissance. On **November 17**, the series will conclude with a discussion of Raphael Sanzio, known as Raphael, (1483-1520), considered to be one of the greatest artists of the Italian Renaissance. Although influenced by Leonardo da Vinci and Michelangelo, he developed his very unique style. The programs will be on **Thursdays from 1-2:30 p.m. in the Raytheon Room.**

A sign-up sheet will be available in late September.

Free Video Tuesdays

Free Video Tuesdays will extend through September. We are hopeful that we will be able to resume requests on audiovisual materials around that time.

Want to influence the future of the Wayland Library?

The Board of Library Trustees seeks residents for a Long Range Planning Committee, which will be established this fall to develop a planning document to assist in guiding the Wayland Library over the next five years. The fourteen member committee will be composed of library trustees, former and current library directors, staff members, and residents of the community. Please indicate your interest by contacting Library Director Ann Knight by 5 p.m., Friday, 9/16/05.

JEWISH LIT GROUP TOPS OUT

Due to the tremendous response to our *Let's Talk About It!* series ("Between Two Worlds: Stories of Estrangement and Homecoming"), we've been compelled to close the sign-up list. We'd like to accommodate more, but with 50 attendees, we're at the outer limits of a manageable size for discussion. Plus the Raytheon Room's official legal capacity is 60, so we're pushing the bounds that way, too. Don't despair—we might apply for this grant next year, too, so you may well have another chance to participate in this exciting program. Our thanks to all who have expressed interest.

Audiobook Requests

The Metrowest Regional Library System continues to work with its new delivery vendor to improve delivery service. Minuteman member libraries voted to reinstate requests on audiobooks (books on tape and CD) through the Minuteman catalog beginning Monday, September 26. We continue to monitor the response of the new delivery system to increases in volume. We hope to phase in the ability to request other audio-visual materials over the coming weeks. In the meantime, anyone with a valid Minuteman Library Network card may go directly to a library and borrow other types of AV items. Please call ahead to check the policies of the owning library. We apologize for the inconvenience to our patrons and thank you for your patience.

Jewish Literature Discussion

Our next Jewish literature discussion group will be on **Tuesday, October 11 at 7:30 p.m.** when the book discussed will be *Out of Egypt* by Andre Aciman. The Science of Katrina— Anatomy of a Storm With Evan Hadingham November 17

On November 22nd, the PBS documentary series NOVA will air an in-depth investigation of the science behind the unprecedented disaster of Hurricane Katrina. NOVA's specially commissioned program will combine an in-depth analysis of what went wrong with a minute-by-minute unfolding of events told through eyewitness testimony. The week before the show's airdate, on **November 17 at 7:30**, NOVA's Science Editor, Evan Hadingham, will present clips from the upcoming show here at our library and will lead a discussion of the science issues posed by the storm and its aftermath. We'll also look at the immense challenges posed by rebuilding New Orleans as we explore why the city was so tragically unprepared when the long-feared disaster finally struck.
